# Social and Civic involvement center principles and vision

The Social and Civic Involvement Unit operates various programs with the goal of reducing inequities in the educational, economic and social spheres. Students with leadership qualities are invited to take part in discussing, planning and acting to achieve greater social equality based on the ideals of social justice and rights.

The unit aspires to leverage the institute's unique resources: knowledge, reputation and, especially, human capital.

**Today's students are tomorrow's leaders**

**Academic knowledge integrated with social engagement**

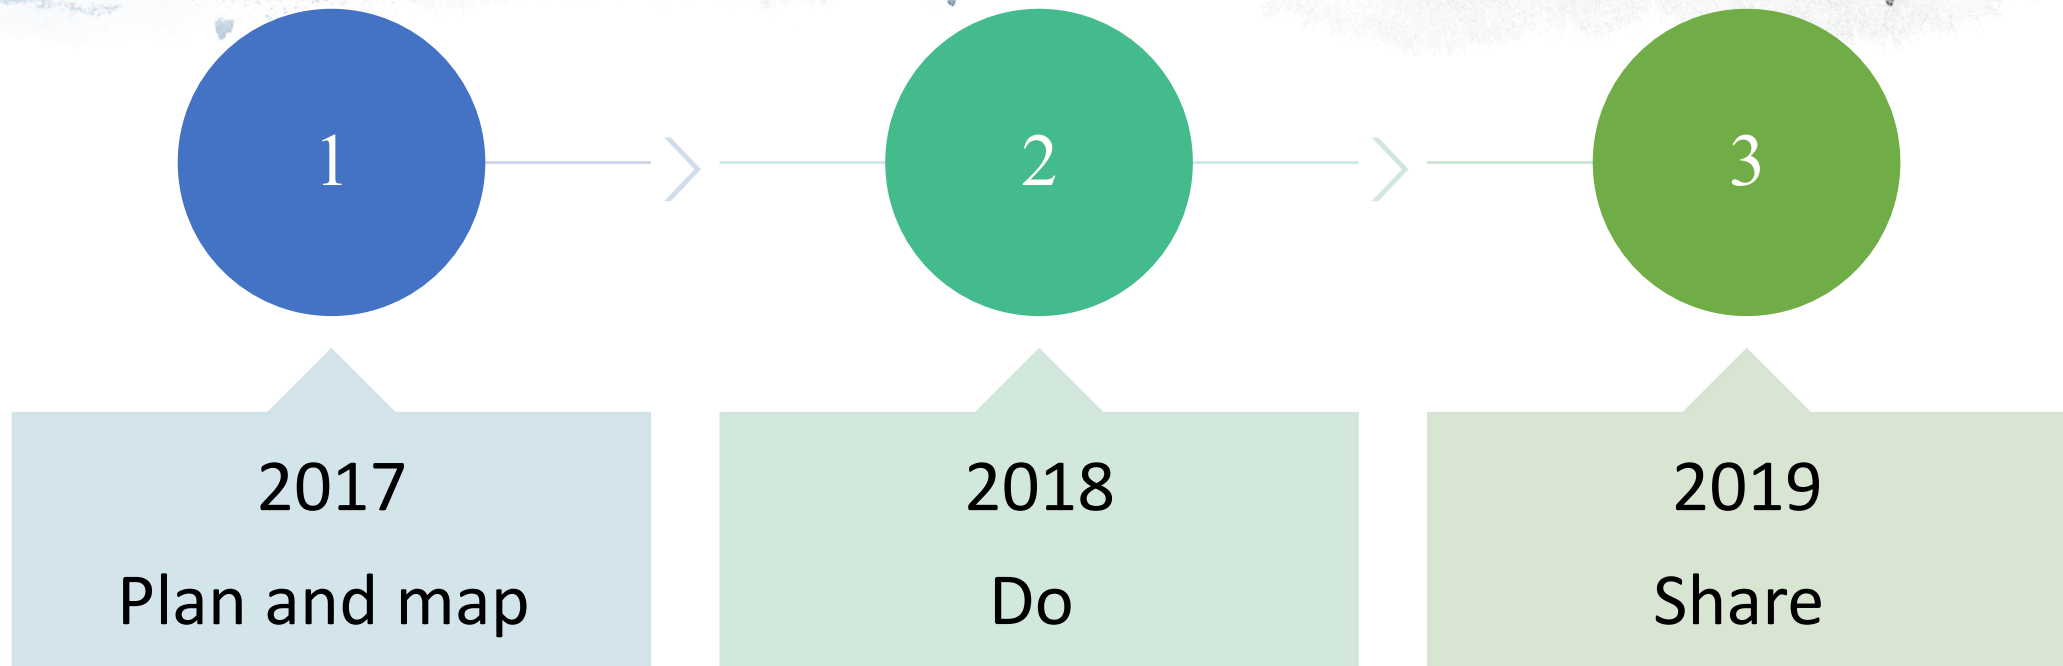

**To bridge gaps and engage communities**
